

**AUTHORISATION REQUEST TO CARRY PERSONAL GASEOUS OXYGEN
CYLINDER IN THE AIRCRAFT CABIN**

Passenger Name: _____

Flight Details: _____

Please provide the following information to obtain authorisation to carry your own gaseous oxygen cylinder in the aircraft cabin. Please note the following:

- *The carriage of oxygen cylinders to the USA is prohibited.*
- *Dolby Vivisol and Air Liquide oxygen cylinders are not approved for airport travel so are not permitted on board the aircraft.*
- *Liquid oxygen, oxygen generators and oxygen cans are all forbidden on board the aircraft.*

1. Are you, or your escort, familiar with and competent using the oxygen equipment?

2. We only accept British Oxygen Company (BOC) cylinders. Please include a picture along with this form, which clearly shows it's a BOC cylinder.

3. Please advise the dimensions (height and weight) of your cylinder (each cylinder and its contents must not exceed 5kg).

4. How many litres of oxygen does your cylinder contain (for example, 320L/450L)?

5. Please confirm the pressure of your cylinder (details of this should have been provided when you obtained the cylinder).

6. How many cylinders will be carried?

In the cabin: _____ In the hold (for use on return): _____

Signed _____ Date _____
